DESIGNER

Lee Sisan

Sisan Lee (b. 1995) is a Seoul-based designer and artist whose practice explores the dialogue between nature, materiality, and contemporary sculpture. Trained in spatial design, he creates collectible furniture and sculptural objects that investigate the balance between natural irregularity and human intervention, drawing inspiration from geological formations, traditional architecture, and the quiet presence of raw materials. Working primarily with stone, wood, and metal, Lee carefully preserves the intrinsic qualities of each material while refining them through a restrained and highly considered design process.

His works are characterized by bold, architectural forms, tactile surfaces, and a profound sense of permanence, transforming functional objects into contemplative sculptural pieces. Rooted in craftsmanship and material research, his practice blurs the boundaries between design and sculpture, creating timeless works that invite a slower engagement with space, texture, and form. His work has been exhibited internationally and includes collaborations with brands such as Gucci and Rimowa.
