Kilzi

Kilzi is a Barcelona-based design studio founded by architect and designer Jorge Suárez Kilzi, creating collectible furniture, lighting, and objects that explore the relationship between material, emotion, and space. Shaped by a multicultural upbringing and an architectural background, the studio develops a restrained design language where sculptural forms, organic silhouettes, and handcrafted finishes come together with quiet elegance. Designed and produced in-house, each piece reflects a thoughtful dialogue between function, material, and permanence. Guided by a philosophy of creating honest objects that endure over time, Kilzi works with materials such as fiberglass, wood, paper, stainless steel, and plaster-inspired finishes to reveal their natural character rather than conceal it. Balancing architectural precision with artisanal craftsmanship, the studio creates collectible pieces distinguished by tactile richness, refined simplicity, and a timeless presence that invites lasting emotional connection.
