DESIGNER

Jaime Hayon

Jaime Hayon is a Spanish artist and designer whose multidisciplinary practice spans collectible furniture, lighting, ceramics, glass, and interior design. Founded in the early 2000s, Hayon Studio has established an internationally recognized design language that merges craftsmanship, art, and imagination. Trained in industrial design in Madrid and Paris, Hayon draws on traditional decorative arts while reinterpreting them through bold forms, vibrant colour, and a distinctly contemporary perspective. Characterized by sculptural silhouettes and a playful yet sophisticated aesthetic, Hayon's work balances artistic expression with refined functionality. Through collaborations with leading international manufacturers and galleries, he has created a body of work that celebrates craftsmanship, storytelling, and material richness, establishing himself as one of the most influential voices in contemporary collectible design.
