Studiopepe

Studiopepe is a Milan-based architecture and design studio founded in 2006 by Arianna Lelli Mami and Chiara Di Pinto. Renowned for its multidisciplinary approach, the studio works across architecture, interiors, product design, creative direction, and installations, creating projects distinguished by a refined dialogue between materiality, colour, light, and atmosphere. Rooted in extensive research and an intuitive understanding of space, Studiopepe approaches each project as a narrative experience, where objects, textures, and architecture come together to evoke emotion and shape memory. Characterised by a sophisticated use of layered expressive sensibility. From luxury residential and hospitality interiors to collectible design and immersive installations, Studiopepe continually explores the relationship between craftsmanship, contemporary culture, and sensory experience. Their projects often blur the boundaries between art and design, creating environments that are both visually striking and emotionally resonant. Through a practice driven by experimentation, storytelling, and meticulous attention to detail, Studiopepe has established itself as one of the leading voices in contemporary Italian design, celebrated internationally for its distinctive aesthetic and innovative vision.
