DESIGNER

William Guillon

French designer William Guillon creates furniture, lighting, and objets d'art steeped in a darkly poetic atmosphere. Drawing inspiration from literature, cinema, and the macabre, Guillon's work often combines bronze, glass, and other precious materials into bold, dramatic silhouettes. Each piece is

crafted in close collaboration with artisans in France, merging fine craftsmanship with conceptual depth. Guillon's creations blur the lines between function and art, appealing to collectors who seek narrative-rich, emotionally charged design
