### DESIGNER

## Jörg Pietschmann

Jörg Pietschmann is a German sculptor and furniture maker whose practice celebrates the expressive character of wood through sculptural furniture and objects. Working with salvaged and naturally fallen timber, he allows each piece of wood to guide the creative process, embracing its grain, fissures, and organic contours as integral elements of the final work. Rooted in a deep respect for nature and traditional craftsmanship, Pietschmann creates powerful forms that balance raw

materiality with refined execution. Guided by a philosophy that values authenticity and imperfection, his work transforms reclaimed timber into collectible pieces distinguished by sculptural presence and tactile richness. Combining artistic expression with functional design, Pietschmann's furniture reflects the enduring beauty of natural materials, creating timeless works that embody resilience, craftsmanship, and a profound connection to the landscape.
