EDITION	Limited Edition
LEAD TIME	7-8 Weeks

DESIGNER

Heaps & Woods

Heaps & Woods is a Madrid-based design studio and atelier working across furniture and interiors, with a focus on handcrafted production and bespoke projects. Founded by Louis Chagnaud and Marta Jurado, the studio brings together a global network of designers and artisans, exploring the dialogue between traditional craftsmanship and contemporary design. Their work is rooted in natural materials—wood, rattan, and woven fibers—shaped through a slow and considered process. Defined by organic forms, honest textures, and bold yet balanced proportions, Heaps & Woods creates pieces that emphasize material authenticity and the beauty of imperfection. Working closely with architects, designers, and private clients, the studio develops both collectible pieces and custom environments, bridging function and atmosphere.
