SB26

SB26 is a Paris-based gallery and design studio dedicated to the presentation of collectible design by both emerging and established creators. With a focus on furniture, lighting, and decorative arts, the gallery operates at the intersection of functional design and sculptural expression, championing objects that transcend utility to become works of lasting presence. SB26's curatorial vision is guided by a discerning attention to material experimentation, singular forms, and exceptional craftsmanship. Each piece is selected for its ability to articulate a strong narrative through process, surface, and proportion, reflecting a dialogue between contemporary creativity and artisanal tradition. By actively fostering collaborations between designers and skilled craftspeople, SB26 supports the development of innovative practices and contributes to the vitality of the contemporary collectible design landscape. Through its programming and studio work, the gallery positions itself as a platform for thoughtful experimentation and refined making, offering objects that resonate with both conceptual depth and material integrity.
