DESIGNER

Brajak Vitberg

Founded in 2019 in Ljubljana by architects Petra Brajak and Robert V. Bijelic, Brajak Vitberg explores the intersection of art and object through a multidisciplinary practice. The studio embraces craftsmanship and experimentation, creating pieces that move

fluidly between furniture, lighting, and spatial installations. Defined by sculptural forms, material integrity, and a commitment to local production, Brajak Vitberg's work embodies both creative autonomy and tactile sophistication.
