DESIGNER

Carine Boxy

Carine Boxy is a Belgian textile artist and founder of sheepsrugskins, a studio established in 2009 dedicated to exploring the expressive potential of natural sheepskin. Based in the Flemish countryside, her work transforms this traditional material into sculptural rugs, furnishings, and immersive interior environments that celebrate texture, comfort, and craftsmanship. Guided by an instinctive and deeply personal approach, Boxy draws inspiration from nature, rural landscapes, and the beauty of untamed forms. Through a practice rooted in materiality and tactile experience, she creates pieces that blur the boundaries between art, design, and interior space, bringing warmth, authenticity, and a distinctive sense of character to contemporary living.
