MATERIALS	Composite Materials
EDITION	Limited Edition
LEAD TIME	7-8 Weeks
ADDITIONAL INFORMATION	Made to order creations can be done: please contact us for any request.

### DESIGNER

## Hot Wire Extensions

Hot Wire Extensions, founded by Fabio Hendry in Switzerland, transforms waste SLS nylon into complex, bone-like forms grown around heated wire. Born from experimental material research, this process produces furniture and lighting of surprising delicacy and structural integrity.

Hendry's work is both a technical innovation and a commentary on sustainable making. Each piece crystallizes a moment of transformation, turning industrial byproducts into objects of organic beauty and enduring function.
