LK Edition

LK Edition is a Paris based French furniture house devoted to the dialogue between artistic vision, material integrity, and exceptional craftsmanship. Working closely with independent designers, the house creates singular pieces that unite creative freedom with rigorous technical execution. Its approach is grounded in a refined understanding of proportion, form, and materiality, drawing upon the clarity of twentieth century modernism while embracing the quiet sophistication of contemporary design. Natural materials define the character of each collection, with finely selected woods, sculpted stone, and meticulously crafted upholstery brought together through a sensitive balance of texture, scale, and surface. Every piece is produced with uncompromising attention to detail, honouring the inherent beauty of its materials and the enduring value of artisanal savoir faire. Through a restrained aesthetic and timeless silhouettes, LK Edition creates furniture of lasting presence, conceived to inhabit architectural and domestic spaces with quiet distinction.
