DESIGNER

Jesse Sanderson

Australian-born and Amsterdam-based, Jesse Sanderson has built a career designing lighting, furniture, and interiors defined by understated luxury and clarity of form. After studying and working in Europe, Sanderson established his own studio where he creates refined, custom pieces for private clients and international projects. His work emphasizes considered proportions, premium

materials, and artisanal execution—offering environments and objects that feel quietly powerful. Rooted in modernist principles but softened by a humanistic touch, Sanderson’s designs are treasured for their ability to adapt across styles and contexts while retaining a distinct, harmonious identity.
