DESIGNER

Hagit Pincovici

Hagit Pincovici is an Israeli-born, Milan-based designer whose work bridges architecture, art, and collectible design. A third-generation artisan, she founded her eponymous studio in 2014, developing a distinctive body of furniture and lighting that combines architectural precision with refined materiality. Drawing on Italy's rich craft tradition, Pincovici works with brass, marble, glass, and wood to create compositions defined by geometric clarity, balanced proportions, and subtle chromatic contrasts. Characterized by sculptural forms and meticulous detailing, her designs balance visual strength with a sense of warmth and intimacy. Produced in collaboration with skilled artisans, Pincovici's work reflects a contemporary elegance where craftsmanship, material richness, and timeless geometry converge to create objects that are both expressive and enduring.
