Chuch Estudio

Chuch Estudio is a Mexican design collective that produces playful yet refined furniture and objects blending modernism with artisanal traditions. The studio often experiments with vibrant colors, graphic patterns, and sculptural silhouettes, referencing cultural heritage while maintaining a contemporary sensibility. Their use of wood, textiles, and ceramics creates rich material juxtapositions and highly tactile surfaces. Chuch Estudio balances creativity and craftsmanship, focusing on both bespoke commissions and small-series production. Their work contributes to the revitalization of Mexican design identity in the global contemporary design landscape.
