DESIGNER

101 Copenhagen

Founded in 2017 by Kristian Sofus Hansen, Tommy Hyldahl, and Nicolaj Nøddesbo, 101 Copenhagen is a Danish design brand producing furniture, lighting, and ceramics with a distinctly modern, sculptural aesthetic. Influenced by Japanese minimalism and Scandinavian heritage, the brands collections are defined by organic forms, tactile surfaces, and muted earth tone palettes. Its pieces blend architectural clarity with handcrafted detailing, resulting in designs that feel both contemporary and timeless. Working with natural materials such as ceramic, concrete, and wood, 101 Copenhagen emphasizes craftsmanship and sustainability. Each collection is developed with a strong focus on balance, proportion, and understated elegance, making the brand a prominent contributor to the new wave of Nordic collectible design.
