DESIGNER

Oeuffice

Oeuffice was founded in 2011 by designers Nicolas Bellavance-Lecompte and Jakub Zak, emerging from years of parallel lives lived between Canada, Berlin, and Milan. United by a shared vision, the duo established Oeuffice as a research laboratory dedicated to the development of innovative, limited-edition design objects. Their practice is grounded in architectural thinking while remaining firmly rooted in the domestic scale, where everyday use meets conceptual depth. Oeuffice's work reflects an ideal of contemporary utopia—objects conceived as thoughtful propositions rather than mere functional solutions. Through rigorous experimentation with form, with space in a more reflective way. Produced exclusively in limited editions, Oeuffice's designs emphasize quality, precision, and intentionality. This approach allows each piece to retain its individuality while reinforcing the studio's commitment to research-driven creation. Their work has been exhibited internationally and is represented by renowned galleries such as Phillips de Pury in London, R20th in New York, Dimore Gallery in Milan, and Carwan Gallery in Beirut. Through a balance of conceptual rigor and domestic sensibility, Oeuffice continues to explore how architectural ideas can be translated into intimate, collectible objects—designs that quietly question how
