DESIGNER

Jennifer Midoz

Jennifer Midoz is a French designer based in Paris, working across lighting and collectible design. Trained at the École Boulle, her practice is rooted in a deep understanding of material—particularly metal—and its relationship to light. Since founding her studio in 2011, she has developed a distinctive body of work centered on handcrafted lighting and sculptural objects, often combining brass with materials such as glass and ceramics. Guided by an intuitive, material-led approach, Midoz conceives each piece as a study of reflection, texture, and movement—where light becomes both medium and subject, and function merges with a refined, poetic sensibility.
