Ayres

Ayres Studio is a Mexico City–based design practice founded by Karim Molina, dedicated to creating sculptural furniture and objects that bridge contemporary design and traditional craftsmanship. Rooted in a deep appreciation for materiality, the studio collaborates closely with artisans across Mexico to produce pieces distinguished by their refined forms, tactile qualities, and enduring character. Drawing on the richness of local materials and ancestral techniques, Ayres develops collections that celebrate the cultural heritage of Mexican craftsmanship while engaging with a contemporary design language. Through this dialogue between tradition and innovation, the studio creates works that are both timeless and deeply connected to place.
