Algo Studio

Founded in Monterrey, Mexico, by architect Diego Garza, Algo Studio embodies an experimental approach to everyday objects. After receiving an MFA in Furniture Design from RISD, Garza returned home and established Algo as a creative laboratory where function meets expressive texture and color. The studio, launched in 2019, specializes in ceramics, concrete, terrazzo, and resin, pushing the boundaries of traditional craft with bold forms and tactile surfaces. Objects produced in small batches blur the line between the ancient and the contemporary, imbuing each piece with warmth and intention. Algo Studio's ethos is rooted in playful innovation, ecological consciousness, and the joy of tactile experience.
