DESIGNER

Estudio Persona

Founded by Uruguayan artists turned designers Emiliana Gonzalez and Jessie Young, Estudio Persona operates out of Los Angeles, channeling sculptural minimalism in furniture and lighting. Their work marries restrained geometries with subtle emotional resonance each piece emanates clarity and quiet emotion, drawing from South American

material sensibility and North American spatial poise. Persona's objects read as distilled gestures, clean in line yet layered in effect. They stand as invitations to slow, sensitive interaction, light, form, and tactility held in elegant equilibrium.
