Secondome Edizioni

Secondome is an Italian design gallery and production house dedicated to contemporary and collectible design, with a focus on innovative projects from around the world. Founded in Rome in 2006 by Claudia Pignatale, the gallery produces its own collections of furniture and objects while actively supporting experimental designers, artisans, and master craftsmen. Secondome's mission lies in celebrating the excellence of Made in Italy through high-quality manufacturing and original design, while moving beyond the notion of static objets d'art. By fostering a dialogue between tradition and experimentation, the gallery highlights the vitality of Italian craftsmanship

capacity for reinvention through new materials, processes, and forms. The artisanal nature of Secondome's production ensures that each piece is individual and highly personalized, reflecting a commitment to limited editions and meticulous making. Collaborating with both emerging talents and established designers, Secondome creates works that transcend trends and retain lasting cultural relevance. As both an incubator and ambassador for contemporary design, Secondome plays a significant role in shaping and promoting Italy's evolving design landscape on an international stage.
