Patricia Bustos de la Torre

Founded with a singular vision, Patricia Bustos Studio creates distinctive universes where beauty, creativity, and meticulous design converge. Rejecting convention, the studio develops its own visual language, exploring the space between physical and digital, reality and utopia. Each interior becomes an immersive narrative shaped by sophisticated colour, organic and geometric forms, reflective surfaces, and the tactile presence of raw, handcrafted materials. Rooted in experimentation and craftsmanship, the studio pursues unexpected solutions that challenge perception and inspire wonder. Its dreamlike, sensual, and innovative projects move freely between traditional and avant-garde expression, embracing bold forms and unexpected contrasts. Guided by an interdisciplinary approach to “sensitive architecture,” the studio creates homes, hotels, restaurants, and boutiques with a deep awareness of context and atmosphere. Every detail contributes to spaces where functionality, technology, and poetic expression coexist, transforming interiors into evocative experiences that remain in the memory long after they are encountered.
