DESIGNER

Noé Duchaufour Lawrance

Born in France in 1974, Noé Duchaufour-Lawrance is a celebrated designer whose work spans furniture, lighting, interiors, and collectible design. His practice is distinguished by a sculptural sensibility deeply informed by nature, material honesty, and an enduring respect for craftsmanship. Trained in both sculpture and furniture design, Duchaufour-Lawrance brings an instinctive understanding of form to his work, blending organic silhouettes with architectural clarity. His designs balance poetic expression with functional precision, resulting in pieces that feel both timeless and emotionally resonant. Early international recognition followed projects such as the Sketch

with renowned maisons including Hermès, Ligne Roset, and Saint Louis. Across these partnerships, his work consistently reflects a refined dialogue between tradition and innovation. Now based in Lisbon, Duchaufour-Lawrance continues to expand his practice through Made in Situ, a personal initiative dedicated to working closely with Portuguese artisans. Through this platform, he reinterprets traditional materials and techniques in a contemporary context, creating objects that celebrate longevity, cultural heritage, and the intimate relationship between form, craft, and human experience.
