| LEAD TIME              | 7-8 Weeks   |
| ADDITIONAL INFORMATION | Made to order creations can be done: please contact us for any request. |

### DESIGNER

## Andrei Clontea

A Luxembourg-Romanian ceramic artist, Andrei Clontea, was born in Bucharest in 1984 and trained as an architect before dedicating himself fully to ceramics. Largely self-taught in his new tier, Clontea's creative journey is marked by a seamless transition from the structural logic of architecture to the tactile, expressive world of hand-built

ceramics. Now dividing his time between Luxembourg and Brussels, he specializes in strikingly sculptural works, each piece the result of meticulous craft and a deeply intuitive approach. Clontea's objects stand as contemporary relics, embodying both curiosity and reverence for material transformation.
