Atelier V&F

Atelier V&F, co-founded by Chen Furong and Vega Zaishi Wang in Shenzhen, produces collectible furniture and objects where weight, texture, and formal condensation speak a refined, material-first dialect. The studio dissolves cultural borders—melding Chinese craft traditions with contemporary sculptural vocabulary to produce pieces that feel both ceremonial and industrial. Their signature objects—benches, tables, and cast brass works—reveal a preoccupation with raw surfaces and the latent landscapes of material: casts, volcanic textures, and disciplined subtraction yield works that read like excavated artifacts. Exhibited and sold through collectible-design galleries, Atelier V&F's output is positioned as research-led craft: limited editions that emphasize processual honesty and material presence.
