LEAD TIME	9-10 Weeks

DESIGNER

Dawid Konieczny

Dawid Konieczny is a Polish designer and architect based in Warsaw whose practice explores the relationship between architecture, collectible furniture, and sculptural objects. Founded in 2021, his studio develops bespoke furniture and limited-edition pieces distinguished by soft geometries, refined material palettes, and a quiet sculptural presence. Guided by a minimalist sensibility and a careful consideration of form, texture, and light, Konieczny creates furniture that balances functionality with artistic expression. Working with natural materials, handcrafted details, and architectural proportions, his pieces embody timeless elegance while blurring the boundaries between interior design, sculpture, and everyday living.
