SNICKERIET

SNICKERIET is a Swedish furniture studio founded in 2011, based between Stockholm and Gothenburg. Working at the intersection of traditional cabinetmaking and contemporary collectible design, the studio explores materiality, construction techniques, and sculptural form through an experimental yet highly refined approach. Led by Karl-Johan Hjerling,

Snickeriet creates pieces that balance craftsmanship with architectural expression, often challenging conventional perceptions of woodworking through texture, proportion, and structural innovation. Their work reflects a distinctly Scandinavian sensibility while pushing the boundaries of contemporary furniture design.
