DESIGNER

Odditi

Odditi is a contemporary design studio dedicated to creating furniture and lighting that sit at the crossroads of playfulness and modernist clarity. The brand explores the dynamic relationship between form and function, approaching design as an open field for experimentation rather than a fixed set of rules. Through bold silhouettes, unexpected proportions, and inventive use of materials, Odditi challenges conventional perceptions of everyday objects. Each piece is conceived as a curious collectible living object—designed not only to serve a function, but also to spark emotion and conversation. The studio embraces experimentation with shape and structure,

usability and expression. This spirit of exploration gives Odditi's work a distinctive identity that feels both contemporary and character-driven. Produced in limited editions and handmade to order, Odditi's collections emphasize craftsmanship, individuality, and intentional making. This approach ensures that every object carries a sense of uniqueness and care, reinforcing its value beyond mass production. Though detailed biographical information remains discreet, Odditi has gained recognition through select international design events, where its innovative spirit and sculptural approach to furniture and lighting continue to stand out.
