DESIGNER

Andres Monnier

Andrés Monnier is a Mexican designer, sculptor, and founder of Monnier Studio, based in Ensenada, Baja California. Working at the intersection of art, design, and sculpture, his practice explores the expressive potential of natural materials through collectible furniture and sculptural objects. Drawing inspiration from philosophy, mythology, nature, and the passage of time, Monnier develops works distinguished by their bold forms, material honesty, and strong narrative character. Working primarily with stone—his signature material—alongside wood, metal, glass, and concrete, Monnier combines traditional craftsmanship with an experimental approach to material and form. His practice seeks to transform raw matter into sculptural compositions that balance monumentality with function, creating timeless objects that blur the boundaries between design, sculpture, and architecture. Through Monnier Studio, founded in 2017, he continues to investigate the relationship between material, memory, and human experience, developing works that invite contemplation while celebrating the intrinsic beauty of natural materials.
