Studionudo

Studionudo was founded with the vision of transforming raw materials into objects of everyday use, while preserving their intrinsic essence. The name itself embodies this philosophy: Studio reflects a rigorous exploration of form and design, while Nudo evokes the purity of the raw materials from which each piece is born. Inspired by nature, the studio's shapes and colours echo the longing for open-air living, transporting us to spaces of purity and freedom. At the heart of this creative journey lies an essential collaboration with Italian artisans, whose mastery establishes a profound dialogue between nature and design. Through their skillful hands, every creation acquires individuality and soul. Working primarily with hide, glass, ceramics, and marble, Studionudo presents objects that transcend function to become singular artistic expressions. Each piece fosters a deep connection between people and their surroundings, embodying the belief that only the objects we truly love will endure.
