Mohebban

Mohebban tells a story that is both ancient and contemporary, where the carpet is understood as far more than a decorative object. Rooted in a millennia-old cultural tradition, each carpet defines not only a physical space but also a spiritual one, carrying narratives shaped by skilled gestures, refined techniques, and generations of knowledge. Since the early 1970s, the Mohebban family has produced carpets of exceptional quality with a deep awareness of the responsibility inherent in this art form. From Iran, the family's place of origin, to Milan, home of the company for over fifty years, and through Turkey, India, and Pakistan—where production takes place

contemporary sensitivity to design. The uniqueness of each Mohebban carpet lies in the dialogue between ancestral techniques and modern patterns. Every piece is the result of a meticulous, entirely handcrafted process: from the selection and training of master artisans and the use of superior materials such as wool, silk, and vegetal fibers, to hand spinning, dyeing, knotting, and the final stages of cutting, washing, and drying. Often exceeding 200,000 knots per square meter, these carpets weave together the threads of past, present, and future, creating singular works rich in aesthetic, symbolic, and cultural value.
