DESIGNER

Joana Teixeira

Joana Teixeira is a Portuguese designer whose practice explores the dialogue between industrial design and traditional craftsmanship through collectible furniture and objects. Drawing on her education in Portugal and Italy, she creates refined pieces distinguished by balanced proportions, thoughtful detailing, and a restrained material palette. Working with wood, metal, and upholstery, Teixeira develops a contemporary design language that combines structural clarity with warmth and tactile richness.

Guided by a deep appreciation for craftsmanship, her work is produced in close collaboration with skilled artisans, celebrating the subtle traces of the handmade process. Balancing functionality with sculptural elegance, Teixeira’s designs emphasize authenticity, material honesty, and timeless simplicity, creating enduring pieces that foster a meaningful connection between people and their living spaces.
