ADDITIONAL INFORMATION	Made to order creations can be done: please contact us for any request.

DESIGNER

Ah Um Design Studio

Ah Um Design Studio is an interdisciplinary practice producing furniture and interior pieces characterized by bold geometry, playful detailing, and a strong graphic sensibility. The studio experiments with a wide range of materials, from wood and metal to composite surfaces, combining them in unexpected ways to create pieces that are both functional and visually dynamic. Their work often references architectural forms, translated into approachable,

human scaled design. Through a mix of limited edition production and bespoke commissions, Ah Um Design Studio maintains a strong emphasis on craftsmanship and individuality. Each creation seeks to bridge the space between artistic statement and everyday usability, ensuring that their objects function as both practical furnishings and striking sculptural presences within a room.
