## Frau Caze

Frau Caze is a German design studio founded by Carolin Zeyher, whose practice explores the relationship between contemporary living, natural materials, and responsible craftsmanship. Based between Berlin and Lake Constance, the studio creates collectible furniture, lighting, and objects distinguished by refined simplicity, tactile materiality, and timeless functionality. Guided by an interdisciplinary approach and a deep appreciation for nature, Frau Caze develops pieces that balance sculptural elegance with everyday use. Rooted in a commitment to sustainability and thoughtful production, Frau Caze collaborates with independent workshops and skilled artisans across Europe to transform natural materials into enduring works of design. Through restrained forms, meticulous craftsmanship, and an honest approach to material, the studio creates timeless pieces that celebrate authenticity, refined simplicity, and the enduring dialogue between contemporary design and artisanal making.
