## Matlight Milano

Matlight Milano is an Italian lighting brand that unites artisanal craftsmanship with refined contemporary design. Each collection is conceived through the dialogue between natural stone—such as marble, onyx, alabaster, and selenite—and noble metals including bronze and brass, resulting in timeless, sculptural lighting pieces. In Matlight Milano's work, stone becomes a vessel for light, revealing its natural veining and depth while engaging with the subtle brilliance of metal. Defined by pure geometries and clean, enduring lines, the brand's aesthetic explores a sense of lightness and balance, where material and illumination coexist in harmony. The resulting

itself and the surrounding space, offering an equilibrium between evocative presence and functional clarity. Customization lies at the heart of the Matlight Milano approach. A wide range of materials, finishes, and combinations allows each piece to be tailored to the needs of architects and interior designers, becoming an integral element of bespoke projects. Conceived, crafted, and assembled in Milan, Matlight Milano embodies the excellence of Italian manufacturing, merging traditional stoneworking expertise with contemporary technologies to create lighting objects designed to endure, both materially and aesthetically.
