DESIGNER

Lucas Morten

Lucas & Tyra Morten direct a small-scale Scandinavian atelier devoted to handmade objects and limited editions that move between art and design. Working from Sweden after periods in New York, they cultivate an ethos of impermanence—forms that honor process marks, patina, and the passing of time.

Their output favors elemental geometries and tactile assemblies, extending a contemporary, self-taught lineage within Nordic craft. Press profiles position the studio as a counterpoint to codified “Scandi” minimalism, advancing a raw, expressive vocabulary grounded in making.
