### DESIGNER

## Francesco Zonca

Francesco Zonca is an Italian architect and furniture designer working between Milan and Tokyo. Alongside his architectural practice, he develops a body of collectible furniture and objects defined by restrained forms, precise proportions, and a deep sensitivity to material. Drawing from his

architectural training and international experience, Zonca's designs explore the balance between structure and softness, function and emotion. His pieces reflect a quiet, thoughtful approach to contemporary design, where craftsmanship and clarity are central.
