LEAD TIME	7-8 Weeks

DESIGNER

Marcela Cure

Marcela Cure is a Colombian artist and interior designer based in Barranquilla, working across interiors and collectible design. Her practice explores the relationship between body, material, and space, often drawing on organic and figurative forms. Working with resin, stone, and wood, she creates sculptural pieces that balance sensuality with structure. Blending art and design, her work reflects a distinctive, expressive language rooted in material experimentation and a strong sense of identity.
