ODA LIK Studio

ODA LIK is a Paris-based design studio founded by architect Sandra Lipovetsky, whose multidisciplinary practice operates at the intersection of art, design, and architecture. Through retail concepts, interiors, furniture, and sculptural objects, the studio explores how space and objects can shape perception, emotion, and experience. Driven by a deep sensitivity to materiality, light, and colour, ODA LIK develops projects that transform according to their environment and the viewer’s perspective. Reflective surfaces, spatial composition, and optical effects become tools for creating immersive atmospheres, blurring the boundaries between object, architecture, and installation. Defined by a bold visual language and a conceptual approach to design, the studio’s work invites a continually shifting dialogue between form, space, and sensory experience.
