Pleto Studio

Pleto Studio is a Ukrainian design studio founded by Alina and Oleksandr Maslenko, focused on sculptural lighting and collectible objects. Their work explores the relationship between light, material, and form, creating pieces that function as both design and quiet spatial interventions. Working primarily with natural and sustainable materials — including wood, wool, and plant-based fibers — the studio combines traditional craftsmanship with a contemporary sculptural language. Each piece is handcrafted, resulting in objects that bring warmth, texture, and a sense of calm to interior environments.
