MATERIALS	Metal, Brass, Quartz

DESIGNER

Marie Jeunet

Based in Paris, Marie Jeunet explores the poetic potential of light through sculpture and design. Her work reveals the singular character of each material, drawing out subtle textures and qualities through reflection, sparkle, and refraction. With a refined sensibility,

she creates minimalist forms that cast dreamlike projections, inviting viewers into moments of reverie. Her practice balances precision and delicacy, offering luminous compositions where matter and light meet in quiet harmony.
