Desacralized by Galerie Philia

April 18-23. Via Lucania, 18 [[Map](#)].

Staged in San Vittore e 40 Martiri, a deconsecrated church built in the XI century, **Galerie Philia** presents *Desacralized*, an exhibition featuring over 20 established and emerging international designers such as Studiopepe, Draga & Aurel, FAINA, and more. They took inspiration from objects which formerly had religious associations but that are now just quotidian, functional pieces. Italian design duo **Morghen Studio** designed a sculptural installation that transcends and sublimates the iconic significance of the historic chandelier, offering visitors a transformative experience of light.
