

news: transatlántico exhibition by galerie philia is a nod to latin american and european designs

news by sharina li

galerie philia is delighted to present transatlántico, a fully immersive exhibition of sculptural design from latin america, taking place in mexico city from 8-12 february 2022.

coinciding with zona maco, the exhibition spotlights the new generation of latin american designers, hailing from mexico, argentina, colombia, peru, puerto rico, venezuela, and the dominican republic, in dialogue with leading designers from europe exhibited in mexico for the first time. in line with galerie philia's core philosophy, [transatlántico](#) celebrates artistry as a medium to transcend societal, cultural, and geographical boundaries, using design to bridge latin american and european discourses and influences within the creative sphere. here are some of the highlights of the exhibition!

about galerie philia

launched in 2015, [galerie philia](#) is an international contemporary design and modern art gallery representing emerging and established designers and artists. the gallery is the brainchild of two brothers who share a lifetime passion for art, literature, and philosophy, hence its name philia, the “highest form of love” in ancient greek, also meaning “friendship” or “affection”.

the gallery’s non-hierarchical curation sits apart from the ephemerality of trends and focuses instead on the true aesthetic quality of the piece - alluring and timeless. unlike others, galerie philia does not focus on a single style - whether minimalist, organic or raw - but embraces heterogeneity. find out more about the exhibition [here](#).
